

## 420-DW2-AS – Web Client Development (client side)

### Assignment 1.3 – HTML (Class work)

Create a Web page **CoffeAndTea.html** with similar table like in the image.  
Have the title “**Coffee and Tea**”.

<ul style="list-style-type: none"><li>• <b>Coffee</b><ul style="list-style-type: none"><li>◦ <i>Colombian</i></li><li>◦ <i>Hawaiian</i></li><li>◦ <i>Brazilian</i></li></ul></li><li>• <b>Tea</b><ul style="list-style-type: none"><li>◦ <i>Black tea</i></li><li>◦ <i>Green tea</i></li><li>◦ <i>White tea</i></li></ul></li></ul>		
<ol style="list-style-type: none"><li>1. <b>Coffee</b><ol style="list-style-type: none"><li>1. <i>Colombian</i></li><li>2. <i>Hawaiian</i></li><li>3. <i>Brazilian</i></li></ol></li><li>2. <b>Tea</b><ol style="list-style-type: none"><li>1. <i>Black tea</i></li><li>2. <i>Green tea</i></li><li>3. <i>White tea</i></li></ol></li></ol>		
<i>First Name</i>	<i>Last Name</i>	

Change the format of the text, replace the FIRST and LAST NAME with your name. Add horizontal lines before and after the table.

Add the 5 images to your table, by preserving the order. The size for the image are: width=180px height=180px for the first 4 images, and width=100px height=100px for the last one. The table have a border = 2 and is between two horizontal lines.

## 420-DW2-AS – Web Client Development (client side)

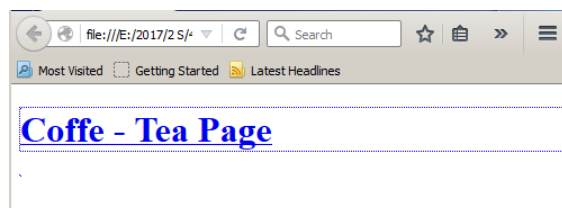

Add the colors to the text and the background, and resize the images to fit the cells of the table.

<ul style="list-style-type: none"><li>• Coffee<ul style="list-style-type: none"><li>◦ Colombia</li><li>◦ Hawaiian</li><li>◦ Brazilian</li></ul></li><li>• Tea<ul style="list-style-type: none"><li>◦ Black Tea</li><li>◦ Green Tea</li><li>◦ White Tea</li></ul></li></ul>		
<ol style="list-style-type: none"><li>1. Coffee<ol style="list-style-type: none"><li>1. Colombia</li><li>2. Hawaiian</li><li>3. Brazilian</li></ol></li><li>2. Tea<ol style="list-style-type: none"><li>1. Black Tea</li><li>2. Green Tea</li><li>3. White Tea</li></ol></li></ol>		
FIRST NAME	LAST NAME	

Use inline CSS **style="color:red; background-color:purple;"** to the appropriate elements of the table to modify the table like in the image. Use the hexadecimal notations for the colors for the second and third row of the table.

Black = #000000,      White = #ffffff,      Red = #ff0000,      Green = #00ff00,  
Blue = #0000ff,      Yellow = #ffff00,      cyan=#00ffff    etc...

Create the another Web page **index.html** that has a link to the web page with coffee and tea; as well on this web page add another link to go back to the index web page.

Upload the compressed folder with your files (.html and images) by LEA.

Thank you.
